### Introductions

I. **Nicki Penrose - The Shandy Clinic**

Teletherapy allows you to enjoy the benefits of traditional therapy in the location that is most convenient for you. Shandy Clinic offers speech, physical, and occupational therapy through this platform. All that is needed is referral from your primary care provider and a computer, laptop, or tablet with an internet connection. A parent is the most influential person in a child's life. Teletherapy provides the opportunity for you to become the "hands of the therapist" and carry over that knowledge into everyday life. We know that the greatest indicator of success in therapy is implementation at home. Don't waste time or allow excuses to stand in the way of your child's success.

II. **Brief Update from Agencies**
